

KARMOL Mozambique Strengthens Support to Flood Victims with Donation to Two Resettlement Centers in Marracuene

Marracuene, March 2026 – KARMOL Mozambique, a company dedicated to the production of electricity through the floating power platform NEZIH BEY, anchored in Nacala Bay, joined the Kumbeza and Mumemo Accommodation Centers in the Municipality of Marracuene to donate essential food items and hygiene kits to families affected by the recent floods that struck the country.

The initiative directly benefits more than 150 families, corresponding to approximately 430 people currently sheltered at the two centers, helping to ease the difficulties faced during this particularly challenging period.

During the handover ceremony, KARMOL representative Cumhur Aksoy emphasized that the donation of essential food items and hygiene kits “should help alleviate the difficulties faced by the families here.” He also expressed deep sorrow over the disaster that affected the community.

He added that “this is not just about distributing goods, but a gesture of sharing, solidarity, and recognition of the resilience shown by the affected communities.”

In turn, the Delegate of the Instituto Nacional de Gestão de Desastres (INGD), Sara Matchie, highlighted that KARMOL’s gesture underscores not only the importance of essential goods, but particularly the inclusion of items which, according to her, “are not always part of donations,” such as baby food and feminine hygiene kits, considered essential for the dignity and well-being of families.

Also present, the Director of the District Services for Planning and Infrastructure (SDPI) of Marracuene, Natália Banze, expressed her appreciation for the support provided and reiterated the institution’s openness to continue working in partnership with KARMOL for the development and well-being of local communities.

Representing the beneficiaries, Lércia Munguambe expressed gratitude on behalf of the sheltered families, acknowledging the “significant impact of the donation at this moment of vulnerability.”

With this initiative, KARMOL Mozambique reaffirms its commitment to corporate social responsibility, solidarity, and continuous support to the Mozambican people.
